

Enigma Quest

DATE: 2nd SEPTEMBER 2023

The Enigma Quest, a university-level girls' coding competition, unfolded successfully on 2nd September 2023 at MA 115, starting at 10 am. Organized collaboratively by IEEE MEFGI WIE SB AG and Department of Information and Communication Technology, the event aimed to provide a platform for female students to showcase their coding skills and promote. Prof. Foram Rajdev, WIE Advisor and Assistant Professor in the ICT Department, played a crucial role as the Faculty Co-ordinator, ensuring the smooth execution of the competition.

The judging panel comprised esteemed faculty members, including Nishith Kotak, Assistant Professor in the Information and Communication Technology Department; Madhu Shukla, Head of the Department of Computer Engineering and Artificial Intelligence; and Santushti Betgeri, Associate Professor in the Computer Engineering Department. Their expertise contributed to fair and insightful evaluation of the participants' coding prowess.

The objective was to showcase the coding techniques of female students currently pursuing their B.Tech degrees at Marwadi University. The event received financial support from MEFGI AG (₹3000) and WIE Gujarat Section (₹3000), contributing to a total funding of ₹6000. The active support of the Department of Information and Communication Technology was instrumental in the event's success. Our dedicated student volunteers: Mansiba Gohil, Aryavardhan Sharma, Dhruvi Kothari, Vartika Vachhani, Jyot Joshi, Diya Kaneriya, Fenil Vadher played a crucial role in ensuring the smooth conduct of Enigma Quest, demonstrating dedication and contributing significantly to the event's overall success.

EnigmaQuest, a coding event tailored for female students in B.Tech programmes related to Computer Engineering, Information and Communication Technology, Artificial Intelligence, and Information Technology, offered a rewarding coding experience. The activity involved timed rounds, with each team member allotted specific durations, culminating in a total time of 28 minutes. Judges were impressed by participants' efforts, suggesting a 50-minute extension to refine their ideas and code presentations. Beyond the competition, EnigmaQuest served as a networking and socializing platform, providing participants with opportunities to interact with mentors and industry professionals. All participants received certificates and goodies, while the top 2 teams secured thrilling prizes in addition to more goodies. The event successfully combined coding challenges with valuable networking and recognition for participants.

This competition, with its emphasis on gender inclusivity and empowerment in the coding and information technology domain, aligns with the ongoing efforts to promote diversity in the field. The Enigma Quest stands as a testament to the collective commitment to advancing knowledge and fostering a supportive environment for female participants in technology-related events.

Runners up	Winners
Khushi Pandya	Bhuvaneshwari Yennapusala
Nidhi Dhinoja	Yashaswi Yeddula
Chandani Bhadarka	Pravallika Neela
Venisha Parmar	Varshitha Basireddy
