

Learn Share Grow Event by Darshan Patel

Date: 17th Jan, 2023

Objective:

Learning is an essential part of our lives. We are always seeking new knowledge and information to expand our minds and enhance our experiences. And what better way to learn than by sharing? That is the fundamental objective of Learning by Sharing, as envisioned by Darshan Patel.

Darshan Patel understood the power of sharing knowledge and the impact it can have on society. He believed that sharing knowledge creates a cycle of growth, where each person gains new knowledge and then shares it with others, thus fostering a community of lifelong learners.

Information:

ICT department of our esteemed institution organized an event for the 1st, 3rd, and 5th semester students of ICT, featuring Darshan Patel as the keynote speaker. The event was aimed at providing students with valuable insights into the philosophy of Learning by Sharing.

The event was held in a seminar hall, which was packed with eager students who were excited to hear from Darshan Patel. The event began with a welcome speech from Registrar Naresh Jadeja and

the head of the ICT department Prof. Chandrasinh Parmar, who introduced Darshan Patel and highlighted the importance of learning by sharing in today's rapidly changing world.

Darshan Patel holds the position of Country Head at Incture, a digital application and solution company based in Mexico. With his vast knowledge and expertise in digital solutions, SAP, ERP, and learning and competency development, he has been instrumental in driving the company's growth and success.

He had spoken passionately about the importance of sharing knowledge and experiences, emphasizing that this was the only way to create a community of lifelong learners who could build upon each other's insights and experiences.

He also highlighted the importance of SAP ERP in modern businesses, emphasizing that it is a powerful tool that can help organizations streamline their operations and make more informed decisions. He spoke about his own experiences in implementing SAP ERP in his businesses, and how it had helped him to manage his resources more effectively and improve overall business performance.

The keynote speech was followed by a Q&A session, where students had the opportunity to ask Darshan Patel questions about his experiences and insights. The session was highly interactive, with students actively engaging in discussions and sharing their own experiences and insights.

India and Mexico share a rich history of cultural and economic ties that date back to the colonial era. Today, both countries have emerged as major players in the global economy, with a growing focus on digital innovation and technological advancements. The students holding the flags of both nations represents the collaboration and partnership between the two countries in various fields, including technology, education, and culture.
